

How do I install Drive | Image on a Konica Minolta device?

Knowledge base article #6604

Prerequisites

To install Drive | Image on a Konica Minolta device, the following conditions have to be met:

- **You are using Drive | Image Version 7.0.500 or higher.**
- **You are using one of the following Konica Minolta devices which include the web browser:**
 - A3 device of the series xx7 or xx8
- **If you are using an other device (which does not include the web browser), you need the following components:**
 - Web Browser License Kit LK-101v3
 - Memory: UK-204

If you are not sure about the web browser license kit and/or the extended memory, contact the Konica Minolta support.

You can find additional information in the Online User Guide of your multi-functional device (e.g. for [754e / 654e](#) or [other models](#)) on the Konica Minolta website about how to configure a device to use an Open API application.

List of i-options for devices per series: https://www.biz.konicaminolta.com/solutions/i_option/#SPECIFICATIONS

Drive | Image for Konica Minolta® is not supported in the Americas.

Note: The web browser has to be enabled on the device administration page on the Network tab.

Note: The WebDAV Client has to be enabled on the device administration page.

To enable the WebDAV Client follow these steps:

1. Login as Administrator
2. Open the Network tab
3. Open WebDAV / WebDAV Client settings
4. Make sure WebDAV TX Settings are switched to "ON"
